Premium Quality - Reliable Service - Competitive Costs

The construction industry is constantly evolving. Relationships between owners, architects, and contractors have become more engaged and collaborative by necessity. 1st Team was founded on this progressive philosophy. We provide a premium level of coordination, communication, and management, valuing team involvement in key decision-making ensuring all project goals are attained. We represent the best of a new generation of contractor, one who measures the success of projects by the satisfaction of our clients, not simply the bottom line.

1st Team understands equally the importance of all four project aspects:

PREMIUM QUALITY

1st Team has the knowledge, craftsmen, and subcontractor resources to provide a supreme level of quality. Any construction project, no matter how small, represents a significant owner investment. Every client should enjoy a completed project with their expectations met or exceeded.

RELIABLE PERFORMANCE

1st Team prides itself on performance. We start the project when we say we will and are devoted to stay on task until it is finished. We are committed to providing necessary resources to complete the project on time. Consistent communication is key to the process. We return our clients telephone calls promptly and keep the lines of communication open.

COMPETITIVE COST

We partner with clients from the beginning to ensure their budgets are met. We provide competitive pricing on projects of various types and sizes. We also do not simply submit "take it or leave it" pricing. If a client has budgetary issues, we will endeavor to value engineer, providing alternatives to reduce cost.

SAFETY

1st Team is committed to fostering a safe workplace for our craftsmen and subcontractors. Our safety standards meet or exceed OSHA standards to ensure a healthy, clean, & positive work atmosphere.
